

Well positioned – this is the motto of a variety of possibilities to design your enclosures individually and arrange them space saving.

This pedestal (see example above with small case "X-dream mini") is made of 4 mm Polystyrene (PS UL94-HB). 3 different standard types are available. The enclosure latches safely onto the pedestal.

Your advantages:

- space saving due to vertical positioning
- elegant desktop solution
- pedestal also available for other small enclosure types
- customised design with other shape, colour or material thickness possible

Give your fancy full scope and challenge us!

Finish:

black resp. according to your request

Material: polystyrene (PS UL94-HB)
